## Professional Summary

Results-driven Software Developer with expertise in full-stack development, API integration, and cloud deployment. Strong focus on delivering scalable solutions, optimizing performance, and automating workflows. Proven success in increasing productivity, streamlining development processes, and enhancing user experiences.

## Technical Skills

**Languages:** C++, Python, JavaScript, SQL, HTML, CSS

**Frameworks/Libraries:** React.js, Node.js, Express.js, Chart.js, Material-UI

**Tools:** Git, GitHub Actions, AWS, Postman, MongoDB Atlas, Figma, Netlify

**Key Expertise:** Full-stack Development, API Development, Data Visualization, Cloud Deployment

## Experience

### Software Development Intern

Faralpha Technologies — Sept 2024 – Nov 2024

- Enhanced data extraction efficiency by 40% through optimized web scraping applications.
- Reduced deployment time by 30% using GitHub Actions for CI/CD automation.
- Developed scalable REST APIs and integrated AWS for cloud-based deployments.

### Web Developer Intern

Afame Technologies — May 2024 – July 2024

- Delivered full-stack applications using React.js and Node.js, accelerating product delivery by 20%.
- Developed a real-time dashboard, boosting team productivity by 25%.
- Collaborated cross-functionally to design scalable, maintainable solutions.

## Projects

### Expense Tracker Application (MERN Stack)

GitHub

- Built a scalable expense management system using React.js, Node.js, and MongoDB.
- Integrated dynamic charts and real-time updates for improved user insights.

### AudibleScript: Text-Speech Conversion

GitHub

- Developed real-time text-to-speech and speech-to-text capabilities using Web Speech API.
- Added upload/download support for both text and audio formats.

### Modulation Simulator

GitHub

- Built a signal visualization tool using React.js and Chart.js for various modulation schemes.
- Supported interactive learning for students and educators.

## Education

### B.Tech in Electronics and Communication Engineering (ECE)

2021 - 2025

Indian Institute of Information Technology (IIIT), Manipur

Relevant Coursework: Data Structures, Algorithms, DBMS, Operating Systems

### 12th Grade, Science (88%)

2019 - 2021

Sanjay Ghodawat Junior College, Maharashtra
